**PETITION FOR REINSTATEMENT OF PATENT TERM ADJUSTMENT
UNDER 37 CFR § 1.705 (C)**

Applicants hereby request a correction of the number of days indicated as "Applicant Delay" on the Determination of Patent Term Adjustment sent with the Notice of Allowance for the above-referenced application. According to the Determination of Patent Term Adjustment, Applicants lost 49 days of patent term adjustment due to the date of receipt of Applicants' response to a Notice to File Missing Parts. However, this delay was solely the result of United States Postal Service delays due to anthrax-related decontamination. The Notice to File Missing Parts was dated September 13, 2001, and Applicants' response was mailed with a certificate of mailing on November 13, 2001 but was not received by the Patent Office until January 16, 2002 (according to the return postcard; copy attached) or January 31, 2002 (according to PAIR; copy of PAIR record attached). According to the Official Gazette dated January 15, 2002, the Office will consider the USPS mail delays occurring between October 13, 2001 and December 1, 2001 as sufficient showing that, in spite of all due care, the applicant was unable to reply to the Office action within three months of the date of mailing and the Office will waive the requirements of 37 CFR 1.705 (including fees) if the USPS mail delays are the sole basis for requesting the change to the patent term adjustment.

As required by the Notice, Applicant includes a Secretary's Log of PTO Mailings, a copy of the PAIR content record and the stamped return postcard as well as a copy of the response

showing the certificate of mailing. Applicant respectfully requests that the patent term adjustment be recalculated and the 49 days of patent term be reinstated.

Applicant asserts that the USPS mail delay is the sole basis for the late arrival of the response and therefore no fee is believed due, however, should a fee be necessary the fee is hereby authorized to be charged to Deposit Account No. 16-0605.

Respectfully submitted,

Kathryn L. Coulter
